Linux

The 7.3 kernel has been released

Source: LWN.net

> Linus Torvalds has released the 7.3 kernel, as expected. It's Sunday afternoon, and this week I somehow kept my wits together long enough to keep track of the day of the week, so the release isn't randomly delayed. Will wonders never cease? Anyway, nothing very special seems to have happened this la...

Modernizing the console with kmscon

Source: Fedora Magazine

> For decades, the Linux virtual console has relied on the kernel fbcon driver, to draw the framebuffer, to manage fonts, and to handle keyboard layout. Starting with Fedora 45, we’re switching to a userspace utility called kmscon. Depending on your usage of virtual console, this may impact your workf...

Omarchy - The Agentic Linux Desktop

Source: Mental Outlaw

> In this video I review Omarchy OS and some of the agentic workflows you can perform on it. It's an interesting experience and requires little configuration for AI workflows besides signing into accounts or pasting in API keys but there's also several security concerns with it. My merch is available...

Linux News: Linus Uses AI, Desktops Upgraded, Anti-Cheat Fix & More

We'll review this weeks news in Linux and Open Source. My Linux Bundle is here: https://savvynik.com T...

Security

Unpatched Broadcom Wi-Fi Flaw Lets Attackers in Range Run Code as Root on Routers

Source: The Hacker News

> A flaw in Broadcom's Wi-Fi setup software lets an attacker within radio range run code as root on Broadcom-based routers, without the network password or any pairing step, security researcher Quentin Kaiser disclosed on October 16. He showed the attack working against home gateways supplied by three...

OpenCode Console Breach May Have Exposed OpenAI, Anthropic, and Google API Keys

Source: The Hacker News

> An intruder reached a legacy system at OpenCode on the night of October 16 and may have exposed the third-party AI provider keys that users had saved in OpenCode Console, the company said. Console is OpenCode's optional hosted service: a workspace saves its own OpenAI, Anthropic, or Google key there...
