Linux

Introducing GNOME OS Preview

Source: LWN.net

> The GNOME Project has provided GNOME OS for some time; until now, the project only provided a "Nightly" edition that was built from the latest commits and was aimed solely at GNOME developers. Adrian Vovk has now announced the release of GNOME OS Preview, which is intended for a non-developer audien...

[$] Safe self-referential data structures in kernel Rust

Source: LWN.net

> Self-referential structures that can be used without unsafe code have posed a problem for Rust for years. There are many cases where a self-referential data structure is the elegant algorithmic choice, but implementing it in accordance with Rust's lifetime rules is all but impossible. At Kangrejos 2...

[$] Recent and future changes to the Linux NFS server

Source: LWN.net

> The NFS network filesystem protocol has a long history on Unix-like operating systems (and beyond). NFS is still evolving, though, and implementations need to keep up. At the 2026 Linux Plumbers Conference , NFS developer Jeff Layton gave an overview of recent enhancements to the Linux implementatio...

Results from the 2026 TAB election

Source: LWN.net

> The results from the 2026 election for members of the Linux Foundation Technical Advisory Board (TAB) have been announced. Kees Cook, Dave Hansen, Miguel Ojeda, and Shuah Khan have all been re-elected, and Laurent Pinchart will be joining the board.

Security updates for Friday

Source: LWN.net

> Security updates have been issued by AlmaLinux (ghostscript, grafana, hplip, libsoup3, lrzsz, rpcbind, and wireshark), Debian (chromium, cifs-utils, expat, gst-

> plugins-bad1.0, gst-plugins-good1.0, jpeg-xl, mutt, and spip), Mageia (gpsd, libx11, and roundcubemail), Oracle (389-ds-base, compat-libtiff...

Join us for the Fedora Linux 45 Release Party!

Source: Fedora Magazine

> Fedora Linux 45 is almost here! Developers, packagers, and quality assurance engineers are hard at work putting the remaining polish on Fedora 45, which means it’s time for our Global Virtual Release Party! It is almost time to celebrate! If all goes according to plan, we will celebrate Fedora 45 ju...

CoreOS 45 Test Week

Source: Fedora Magazine

> The Fedora CoreOS and QA teams are gearing up for Fedora 45, and we need your help! We are organizing a Fedora CoreOS Test Week starting on September 21, 2026. This event is a great opportunity for the community to test Fedora CoreOS (FCOS) based on Fedora 45 content before it officially reaches the...

Announcing Fedora Linux Asahi Remix 45 Beta

Source: Fedora Magazine

> We are happy to announce the availability of Fedora Linux Asahi Remix 45 Beta. This pre-release will bring the freshly announced Fedora Linux 45 Beta to Apple Silicon Macs. We expect to announce general availability of Fedora Linux Asahi Remix 45 in about a month. This will coincide with the overall...

Announcing Fedora Linux 45 Beta

Source: Fedora Magazine

> Fedora Linux 45 Beta is here! On Tuesday, 15 September 2026 you can download or upgrade your systems from your usual spots to start enjoying what F45 has to offer early. How to get the beta release You can download F45 Beta, or our pre-release edition versions, from any of the following places: You...

Model Context Protocol gateway for Red Hat OpenShift is now generally available

Source: Red Hat Blog

> The Model Context Protocol (MCP) gateway is now generally available (GA) as part of the Red Hat Connectivity Link 1.5 release, and natively integrated into the Red Hat AI portfolio. This follows a successful technology preview, and expands Red Hat's enterprise AgentOps capabilities to govern AI agen...

Art Craft Cloned Adobe Creative Cloud and Made it Open Source

Source: Mental Outlaw

> In this video I discuss Art Craft, with a focus on Photo Craft which is an open source clone of Adobe's Photoshop program that works natively on Linux and FreeBSD at no cost without the need for Wine or other compatibility layers. Try Art Craft programs yourself https://getartcraft.com/apps My merch...

Hackers Use Compromised ConnectWise Credential to Sign In to 173 Microsoft 365 Tenants

Source: The Hacker News

> Cybersecurity researchers are sounding the alarm related to an active campaign in which unknown threat actors are abusing a compromised Microsoft 365 (M365) credential belonging to ConnectWise Cloud Backup (formerly SkyKick) to gain unauthorized access to customers' M365 environments. ConnectWise Cl...

Researchers Demonstrate OpenBSD Root Exploit Chaining 37-Year-Old Shared-Memory Bug

Source: The Hacker News

> A local privilege escalation exploit published today gains root on OpenBSD 7.9 by chaining a roughly 37-year-old integer overflow with a separate kernel flaw, bypassing OpenBSD's KARL kernel-address randomization and its SMAP and SMEP hardware protections. Security firm Calif, which found and report...

Attackers Tampered with AOMEI Backupper's Update Servers for Minutes to Deliver a Backdoor

Source: The Hacker News

> Attackers repeatedly changed the files that AOMEI Backupper fetches from the vendor's own update servers, in windows of five to ten minutes at a time between May and July 2026, so that any copy of the Windows backup program that checked for an update during one of those windows would download and ru...

UAT-11985 Uses Fake Event Invites to Target Taiwan Research Affiliates With Google AitM Phishing

Source: The Hacker News

> Cybersecurity researchers have disclosed details of an advanced persistent threat (APT) spear-phishing campaign that has targeted individuals affiliated with Taiwan

> research organizations to direct victims to an adversary-in-the-middle (AitM) phishing framework designed to harvest their Google accou...

OpenAI Research Model Spent 3rd-Party Test ETH Without Permission to Deploy Smart Contract

Source: The Hacker News

> OpenAI has disclosed seven new incidents in which its artificial intelligence (AI) models exhibited misaligned behavior, including one case where its research model, after not having funds on an Ethereum test network, spent test cryptocurrency from a third-party's wallet without authorization to com...

AI Decision Models and Their Impact on AI SOC Platforms

Source: The Hacker News

> In the space of a month, a new category of AI model went from nonexistent to everywhere. TypeSafe AI released Jev on September 15 and called it a System One model, a nod to Kahneman's fast, intuitive thinking. OpenAI announced its own Decisions API at DevDay and opened a public beta on October 6. Cr...
