Ubuntu Still Hasn't Fully Patched This Exploit

Source: Mental Outlaw

> In this video I explain the Linux root RCE exploit CVE-2026-98432 and how Ubuntu has been delayed in releasing bug fixes as well as communicating when the bug fixes are actually available. Community supported distros like Debian, Alpine, and Arch Linux have been able to release fixes for their users...

AI Finds 948 Linux Exploits, APT Flaw, Legal Threats & AMD Loves Omarchy

Source: SavvyNik

> This week's Linux and Open Source News.. AI discovers 948 Linux kernel exploits, a serious APT security vulnerability puts Debian users at risk, and legal threats threaten an open-source DisplayLink driver! Meanwhile, AMD loves Omarchy for some reason, Fedora 45 is finally here, and Linux 7.4 is see...

Default 'admin:admin' Server Password Helps Researchers Hack Two Automakers, Unlock and Start Cars

Source: The Hacker News

> The login systems behind two car brands' mobile apps could be taken over completely, two security researchers found, allowing them to access any customer's account and, for an owner with a connected car, unlock the doors and start the engine. Both apps signed customers in through ForgeRock, an ident...

Web3Auth Flaw Exploited to Steal Keplr Crypto, Provider Empties Other Wallets for Safety

Source: The Hacker News

> Some people who set up a Keplr crypto wallet with their Google or Apple account have had money stolen by an attacker. Keplr uses a company called Web3Auth to run that Google and Apple sign-in. The attacker used a security flaw at that company to reach the wallets, both companies said late last week....

LNbits Urges All Operators to Shut Down Their Bitcoin Lightning Wallet Servers Amid Attacks

Source: The Hacker News

> Everyone running LNbits, a free, open-source Bitcoin Lightning wallet system, should shut down their servers now because of a wave of attacks, the project said yesterday. It has several security fixes to release and asked operators to be careful until they are out. One operator said new accounts use...

Taiwan-Based Hacker Used BOSSAI AI Agents to Steal Taipei Emergency Dispatch Records

Source: The Hacker News

> A single attacker using AI agents pulled emergency dispatch records covering seven Taipei districts, researchers at Acronis's Threat Research Unit said last week. The agents also found a Taipei fire department platform exposing patient data from 2018, including ECG readings and ambulance video foota...

Former OpenAI Engineer Pleads Not Guilty to Planting Covert Device in Executive Meeting Room

Source: The Hacker News

> The OpenAI engineer who was arrested and charged last month for planting a covert audio recording device in the company's office has pleaded not guilty. According to reports from Bloomberg and CNBC, Saudi national Abdulrahman Alfozan made an appearance in San Francisco federal court on Friday, where...

U.S. Agencies Warn Refrigeration Controller Attacks Could Cause Fires and Inventory Losses

Source: The Hacker News

> U.S. government agencies have warned that threat actors are actively targeting industrial refrigeration and cold-chain monitoring systems globally with an aim to cause service disruptions, fire hazards, and loss of inventory. "The actors may exploit vulnerabilities or weaknesses in unpatched or inte...

CISA Flags SonicWall SonicOS MFA Bypass Flaw Amid Reports of Possible Exploitation

Source: The Hacker News

> The U.S. Cybersecurity and Infrastructure Security Agency (CISA) has added a high-severity vulnerability impacting SonicWall SonicOS to its Known Exploited Vulnerabilities (KEV) catalog, following reports that it said may have been exploited in real-world attacks. The vulnerability, tracked as CVE-2...
