M2: Episode 1 (or, Asahi Linux on M3)

Source: *Asahi Linux Blog*

It's been a while since we did a blog post outside of the progress reports, and today's as good an occasion for one as any; support for M3 series machines has now been merged into the installer. In other words, Asahi Linux now officially supports Macs with an M3 series SoC! Linux support for M3 seri...

Unpatched Magento and Adobe Commerce Zero-Day Exploited to Backdoor Online Stores

Source: *The Hacker News*

Attackers are exploiting a new unpatched vulnerability in Magento Open Source and Adobe Commerce that lets them run malicious code on an online store's server without logging in, Dutch e-commerce security company Sansec said in an advisory published on September 5. Sansec, which discovered the flaw...

Attackers Breached JetBrains Cadence via Unpatched TeamCity, Extracting AWS Credentials

Source: *The Hacker News*

JetBrains is urging Cadence users to revoke and rotate all credentials following a security incident last month in which unidentified threat actors exploited a recently disclosed critical vulnerability in TeamCity to breach its own environment. "Cadence users should immediately revoke or rotate all...

Critical VMware Workstation and Fusion Flaw Lets VM Admins Execute Host Code

Source: *The Hacker News*

Broadcom has released security updates for two security flaws impacting VMware Workstation and Fusion, including one critical bug that could result in arbitrary code execution under certain conditions. The vulnerability, tracked as CVE-2026-59346 (CVSS score: 9.3), is an integer-overflow vulnerabili...

Trezor Says ShipMonk Breach Exposed 67,000 U.S. Customers' Data It Said Was Deleted

Source: *The Hacker News*

Hardware wallet manufacturer Trezor on Friday disclosed that another 67,000 customers from the U.S. have been impacted in a breach at its shipping provider ShipMonk. The exposed information includes customer names, email addresses, phone numbers, shipping addresses, and order numbers between Novembe...
